Ishita Pandey

Software Engineer at Microsoft
Hyderabad

Summary

Currently contributing to Microsoft Defender ATP for Android - <https://www.microsoft.com/security/blog/2020/06/23/microsoft-continues-to-extend-security-for-all-with-mobile-protection-for-android/>

Experienced software developer looking to leverage my passion for problem solving and algorithm design into an engineering role that allows me to create engaging products and user experiences. Skilled in C++, X++ and python. Interests include Azure, IoT, Mixed Reality. and neural networks. With excellent communication skills, I am also a great team player and a self-starter that likes to engage in a logical thinking approach to problem solving.

Experience

Microsoft

3 years 2 months

Software Engineer

March 2019 - Present (1 year 6 months)

Hyderabad, Telangana, India

Technical Consultant

July 2017 - March 2019 (1 year 9 months)

Hyderabad, India

As a consultant in the Microsoft business applications team, my role involved engaging with enterprise customers and crafting tailor made solutions based on Dynamics 365. My work spanned across all parts of the SDLC - including design, development, testing as well as requirement gathering and analysis.

Microsoft

Intern

June 2016 - August 2016 (3 months)

Hyderabad

Developed a cross-platform mobile application allowing customers to purchase products using a HoloLens or a Xamarin mobile app. On the seller's end, warehousing, dispatch and delivery related functionality was added (supported by Azure).
